

This drawing must NOT be scaled. Prior to the commencement of any works, the Main Contractor is to check and/or determine all construction details including checking existing site levels and dimensions. This drawing is to be read in conjunction with all other project drawings, construction notes and/or project specifications. All discrepancies should be reported to the Architect immediately.

RISK ANALYSIS KEY  Indicates a residual risk as a warning.

SAFETY, HEALTH & ENVIRONMENTAL INFORMATION In addition to the hazards/risks normally associated with the type of work detailed on this drawing, please note the following:

It is assumed that all works will be carried out by a competent contractor working, where appropriate, to an approved method statement

Notes

- All consultants must check this information prior to implementation and report any co-ordination discrepancies to the Architect immediately.
- For details of the structural frame, supporting foundations and structural slabs, please refer to Structural Engineer's drawings and specifications.
- For details of the proposed Mechanical and Electrical installation, please refer to the M&E Consultants drawings and specifications.
- For details of the proposed hard and soft landscaping, please refer to the Landscape Architects drawings and specifications.
- Drawing to be read in conjunction with all other General Arrangement drawings, sections and elevations.
- All specification items noted and dimensioned are subject to final confirmation and detailed design input between the Architect, Structural Engineer, M&E Consultant, Main Contractor and specialist sub-contractors.
- All finished floor levels are shown as construction levels only. The finished floor level does not reflect any thickness of the proposed internal floor finishes.
